How we insure you

Like any member of the family, a Pet can unexpectedly become ill or suffer an accident, and Vet bills can end up amounting to thousands of dollars. SPCA Pet Insurance can give you peace of mind, providing financial assistance by reimbursing you for eligible Vet Expenses after your Pet receives Treatment at any registered Vet in New Zealand.

We will reimburse the Vet Expenses incurred by you as a result of a Treatment to the insured Pet for Accidental Injury or Illness Conditions up to the Benefit Percentage subject to the applicable Benefit Limit(s).

This reimbursement is subject to the terms and conditions (including any Conditions and exclusions) of the Policy and requires that:

-  you have paid the premium to us for the Cover provided;
-  the Accidental Injury or Illness conditions arose during the Policy Period; and
-  the Treatment occurred during the Policy Period.

Frequently asked questions

Information about insurance Cover in this section is a summary only. You should read this Policy Document for full details of the Policy terms and conditions, Waiting Periods and exclusions.

What Cover does Big Stuff Cover provide?

Big Stuff Cover provides Cover for Accidental Injuries and Illnesses with an overall Annual Benefit Limit of \$25,000 and a Benefit Percentage of 90%. There is an Excess of \$1,000 that applies to each Condition you claim per Policy Period. This means that we apply a Benefit Percentage of 90% to your eligible Vet Expenses before your Excess is applied and deducted.

Please note: Annual Sub-limits apply for Emergency Boarding.

What is my Excess?

The first amount of a claim we do not pay and which you are required to pay yourself as shown on your Certificate of Insurance.

The Excess is \$1,000.

Please note: The Excess is deducted from your benefit for each Condition treated during the Policy Period that is not related to any other Condition treated during the same Policy Period. Refer to page 18 for an example of how claim payments are calculated.

What exclusions exist?

As with most insurance products, there are certain situations in which you will not be Covered. There are some general exclusions such as Pre-existing Conditions, routine or preventative Treatments, some Elective Treatments and procedures and breeding or obstetrics Conditions or Treatments.

Refer to 'Section 2 – General exclusions' on page 13 for further details.

Will I have lifelong Cover for my Pet?

Once your Pet is accepted for Cover and as long as we continue to provide this product and you continue to hold the Policy without a break in Cover and renew your Policy, your Pet will be Covered for eligible Vet Expenses for life, with Cover subject to the applicable terms and conditions of the Policy for each renewal period.

You can apply for Big Stuff Cover as long as your Pet is over eight weeks of age at the time of application.

What if my claim reaches my Annual Benefit Limit or Sub-limit?

Your Annual Benefit Limit and Sub-limits are the maximum benefits that can be paid to you in any one Policy Period and are stated on your Certificate of Insurance. If you do make a large claim (or number of claims) and reach your Policy limits, your Policy limits will reset on the renewal date of your Policy.

See the 'Benefit Limit(s) (Annual and Sub-limit(s))' definition on page 21 for more information.

What is a Pre-existing Condition?

If any Condition existed or occurred prior to the Commencement Date of the first Policy Period or within any applicable Waiting Period, and you or your Vet were aware of the Condition, or a reasonable person in your circumstances would have been aware of the Condition, then it may be considered to be a Pre-existing Condition and excluded from Cover. This is the case, irrespective of whether the underlying or causative Condition was diagnosed at the time.

Whether such a Condition is a Pre-existing Condition will depend on its nature and experience. Some Pre-existing Conditions may be covered where they are a Temporary Condition. After any applicable Waiting Period, if your Pet has a Temporary Condition that is considered to be a Pre-existing Condition (because it occurred or existed prior to the Commencement Date of the first Policy Period, or during any applicable Waiting Period), but that Condition has not existed, occurred or shown noticeable signs, symptoms or an abnormality in the 18-month period immediately prior to your claim Treatment date, it will no longer be excluded from Cover as a Pre-existing Condition.

Chronic Conditions and several other specified Conditions (see page 22) cannot fall within this category of Temporary Condition. However, hereditary Conditions and congenital Conditions will not be considered a Pre-existing Condition if they have not shown noticeable signs, symptoms or an abnormality at any time before the Commencement Date of the first Policy Period or during any applicable Waiting Period.

What Waiting Periods apply?

The Waiting Periods that apply are:

-  21 days for Conditions covered under the Illness Cover; and
-  6 months for Cruciate Ligament Conditions (may be waived on application, refer to the Waiting Period section on page 8).

Please note: There is no Waiting Period for Accidental Injury Cover (except Cruciate Ligament Conditions), which will be Covered from 11:59pm on the Commencement Date of the first Policy Period.

General terms and conditions

Section 1 – Pre-existing Conditions

We may exclude some Pre-existing Conditions. Please read this section carefully to fully understand what your Pet is or is not Covered for.

Pre-existing Conditions

If any Condition existed or occurred prior to the Commencement Date of the first Policy Period or within any applicable Waiting Period, and you or your Vet were aware of the Condition, or a reasonable person in your circumstances would have been aware of the Condition, then it may be considered to be a Pre-existing Condition and be excluded from Cover. This is the case, irrespective of whether the underlying or causative Condition was diagnosed at the time.

Whether such a Condition is a Pre-existing Condition will depend on its nature and experience. In particular:

-  after any applicable Waiting Period, if your Pet has a Temporary Condition that is considered to be a Pre-existing Condition (because it occurred or existed prior to the Commencement Date of the first Policy Period, or during any applicable Waiting Period), but that Condition has not existed, occurred or shown noticeable signs, symptoms or an abnormality in the 18-month period immediately prior to your claim Treatment date, it will no longer be excluded from Cover as a Pre-existing Condition; and
-  Chronic Conditions and several other specified Conditions (see page 22) cannot fall within the category of Temporary Condition and will always be excluded from Cover.

Hereditary Conditions and congenital Conditions will also not be considered a Pre-existing Condition if they have not shown noticeable signs, symptoms or an abnormality at any time before the Commencement Date of the first Policy Period or during any applicable Waiting Period.

Pre-existing Condition review

If you would like us to review whether a Temporary Condition(s) which has been subject to the Pre-existing Condition exclusion in your Policy remains excluded, you may apply to us to review the Condition. To do so, your Vet will need to certify and provide Vet records verifying that the Condition remains a Temporary Condition and has not existed, occurred, or shown noticeable signs, symptoms, or an abnormality for a period of 18 months.

The Pre-existing Condition exclusion(s) shall not be deemed to have been lifted unless agreed to by us via email.

You can download a copy of the 'Pre-existing Condition Review Form' on our website spcapetinsurance.co.nz

Pre-existing Condition claim examples

Pre-existing Temporary Conditions that are Covered

Example 1 Prior to the Commencement Date of the first Policy Period, your Pet has a case of gastroenteritis due to some dietary indiscretion. The Condition is treated and your Pet recovers. You then purchase a pet insurance Policy. Two years later, your Pet has another unrelated case of gastroenteritis.

Your claim would be eligible for Cover because:

-  The first gastroenteritis episode was a Temporary Condition, given that it normally resolves with Treatment and is not on the list of excluded Conditions in that definition.
-  There was more than an 18-month gap between the Conditions.
-  The second episode of gastroenteritis was not a Related Condition.
-  The Condition was not specifically excluded in the Policy Document.

Example 2 Your Pet had a case of demodectic mange 18 months prior to the Commencement Date of the first Policy Period. The Condition is resolved after your Pet receives Treatment. Two years into the Policy, your Pet contracts another case of demodectic mange.

Your claim would be eligible for Cover because:

-  The first Condition was a Temporary Condition that is normally resolved with Treatment and is not on the list of excluded Conditions in that definition.
-  Your Pet did not have demodectic mange, or show any noticeable signs, symptoms, or abnormality in relation to that Condition for more than an 18-month period.
-  The Condition was not specifically excluded in the Policy Document.

Pre-existing Condition claim examples

Pre-existing Chronic Conditions that are not Covered

Example 1 Your Pet is limping and is diagnosed with a grade two luxating patella (dislocating kneecap) within the applicable Waiting Period of the Policy. Your Vet prescribes anti-inflammatory medication. This claim is not Covered, because you and your Vet became aware of the Condition within the 21-day Waiting Period for this Condition.

Two years later, your Pet requires surgery for the patella luxation. This Condition is excluded from Cover because:

-  You and your Vet first became aware of the Condition in the applicable Waiting Period.
-  The Condition (patella luxation) is not a Temporary Condition, as it is specifically excluded from that definition.
-  As a result, it remains a Pre-existing Condition two years later.

Example 2 Your Pet has had recurring seasonal allergies every spring and summer since it was two-months old. This recurs for a period greater than three months. You purchase a pet insurance Policy and two years later make a claim for another round of allergy treatment.

Your claim would not be eligible for Cover because:

-  The Condition is a Pre-existing Condition, given that you were aware of it prior to the Commencement Date of your first Policy Period.
 -  Your Pet's seasonal allergy Condition is not a Temporary Condition, as it is specifically excluded as a Chronic Condition. This is because it was long-lasting, recurring and affected your Pet for a period greater than three months.
 -  As a result, it remains a Pre-existing Condition two years later.
-

To make a claim, simply log in to your Pet Portal and upload your documentation via spcapetinsurance.co.nz/portal

Important claim information

All claims must include itemised tax invoice(s), payment receipt(s) and applicable Consultation notes.

You must provide sufficient evidence to substantiate your claim to our reasonable satisfaction. We may also require you to provide us with additional supporting information that in our reasonable opinion is necessary to substantiate your claim.

When submitting a claim, please include all relevant invoices and clinical records from your Vet.

Please note:

-  In some instances, we may require more information to process your claim, such as previous medical history or pathology/laboratory results. If this is the case, we will contact you for this information.
-  There may be also scenarios where we request additional Vet history from current or previous Vets (such as if there is a large history gap) to ensure we have all relevant clinical information for your Pet.
-  For adopted Pets, Vet history is only required from when you took ownership. If you can provide us with proof of adoption or transfer of ownership papers, we will only request Vet history from the date you took ownership onwards.

You agree that your Vet (current or previous) is authorised to release information and/or records to us about your Pet.

You agree that we are authorised to discuss with the Vet, details relating to your claim or Treatment provided to your Pet in relation to a claim made under the Policy.

Other insurance cover

If any part of any valid claim is covered by any other insurance or a third party, then you must provide us with those details at the time you submit your claim and the maximum amount we can pay will be the difference. If you can claim against someone, you must claim against them first before we will consider covering the difference.

Example 1: If your Pet has had elbow dysplasia in the left elbow prior to the Commencement Date of the first Policy Period you are insured with us or during the applicable Waiting Period, which falls within the definition of Pre-existing Condition, subsequent elbow dysplasia in the right elbow will still be considered a Pre-existing Condition.

Example 2: If your Pet suffers from a patella luxation in its left hind leg and arthritis in its right hind leg, this is not a Bilateral Condition, as patella luxation and arthritis are not the same Condition.

Certificate of Insurance

The most recent certificate we provide outlining the key details of the contract of insurance between you and us, and identifying the Policy number, Excess, Commencement Date, End Date, insured Pet and a schedule of benefits including Benefit Limits.

Chronic Condition	<p>A Condition that is long-lasting or recurring in its effects and affects (or is present in) your Pet over a period that is greater than three months in total (the three-month period need not be consecutive). The Condition would be a Chronic Condition, given that it is recurring in its effects. If the Condition otherwise falls within the definition of Pre-existing Condition it will be excluded from Cover.</p> <p>Example 2: Your Pet showed signs of diabetes for at least three months prior to the Commencement Date of the first Policy Period you are insured with us. This would also be a Chronic Condition, given its long-lasting and recurring effects. If the Condition otherwise falls within the definition of Pre-existing Condition, it will be excluded from Cover and all expenses related to diabetes will be excluded.</p>
Commencement Date	11:59pm on the date shown on your Certificate of Insurance.
Condition(s)	Any Accidental Injury, or any manifestation of an Illness.
Consultation	An examination performed by or under the supervision of a Vet, including a physical consultation, inpatient examination, in-hospital examination, health certificate, consultation or recheck consultation/visit, referral/specialist consultation/visits, emergency and after-hours consultations/visits.

The Cover includes the additional benefits explained in the 'Additional benefits' section on page 9.</p>
Cruciate Ligament Condition	<p>Partial or complete rupture of the cruciate ligament(s). This includes meniscal tears, any looseness of the cruciate ligaments along with any complications following Treatment for the Cruciate Ligament Condition.</p> <p>A Cruciate Ligament Condition is considered a single Condition irrespective of whether one or both legs are affected, please refer to the 'Bilateral Condition' and 'Benefit Limit(s) (Annual and Sub-limit(s))' definitions on page 21.</p>
Elective Treatment	A Treatment or surgery that is beneficial to your Pet but is not essential for your Pet's survival or does not form part of the Treatment for a Condition. Refer to 'Section 2 – General Exclusions' on page 13.
End Date	<p>12:01am on the date upon which your Policy terminates and benefits cease.</p> <p>The End Date is shown on your Certificate of Insurance. If the Policy is cancelled, then the date of cancellation will be deemed to be the End Date.</p>

Pre-existing Condition	<p>A Condition that existed or occurred prior to the Commencement Date of the first Policy Period or within any applicable Waiting Period, of which you or your Vet were aware or a reasonable person in your circumstances would have been aware, irrespective of whether the underlying or causative Condition has been diagnosed.</p> <p>A Pre-existing Condition also includes a Related Condition or Bilateral Condition of a Pre-existing Condition.</p> <p>After the end of any applicable Waiting Period, a Condition will no longer be considered a Pre-existing Condition if it is a Temporary Condition that:</p> <ul style="list-style-type: none">  has not existed, occurred or shown noticeable signs, symptoms or an abnormality in the 18-month period immediately prior to your claim Treatment date, please refer to the definitions of 'Temporary Condition', 'Chronic Condition' and 'Cruciate Ligament Condition'; or  we have agreed via email it will not be a Pre-existing Condition, following a Pre-existing Condition Review, please refer to the terms of a Pre-existing Condition Review on page 11. <p>For example: Six weeks prior to the Commencement Date of the first Policy Period, you notice your Pet has a Condition involving limping on its left back leg and you take it to the Vet. Your Vet prescribes anti-inflammatory medication. 12 weeks after purchasing a Policy the limping is diagnosed as degenerative joint disease. The Condition would be a Pre-existing Condition and excluded from Cover, notwithstanding that the diagnosis was not provided until after the Commencement Date.</p>
Related Condition	<p>A Condition that results from the same disease process, arises as a consequence of or has the same diagnostic classification as another Condition, regardless of the number of areas of your Pet's body that are affected.</p> <p>Example 1: If your Pet suffers from arthritis in its legs, all future occurrences of arthritis (e.g. in the back or neck) will be Related Conditions.</p> <p>Example 2: If your Pet suffers from diabetes and then develops a cataract as a consequence of the diabetes, the cataract will then be a Related Condition.</p> <p>Example 3: If your Pet suffers from a skin hotspot, then later suffers from ringworm on its skin, these are not Related Conditions, as the ringworm is not as a consequence of the hotspot, nor do they follow the same disease process or diagnostic classification.</p>

For example: Your Pet has dietary related gastroenteritis prior to the Commencement Date of the first Policy Period you are insured with us that is resolved with medication. Your Pet does not suffer any further instances of dietary related gastroenteritis until three years later, when your Pet suffers another gastroenteritis episode. This Condition would be a Temporary Condition which has not existed, occurred or shown noticeable signs, symptoms or an abnormality in the 18-month period immediately prior to the second gastroenteritis episode, so would not be a Pre-existing Condition and would be Covered subject to your Policy terms and conditions.
